## 1. PACKAGED CONTENTS

- 1) Bright white & UV LED
- 2) Metal safety frill and internal translucent finger shield
- 3) Ground stake & Ground tube

## 2. OPERATION

For first time use turn the switch on the back of the solar panel to position "ON" solid lighting mode then allow to charge in full sunlight for at least 6 hours.

This LED solar light set has 2 modes of operation.

- 1) UV (Kill mosquitoes mode), 2) White (Lighting function)

For "UV" mode, the lamp will be in Kill mosquitoes mode

Applies ultra purple light to attract insects & mosquitoes while killing them with over 1,000 volts

For "OFF" mode: the lamp will be off

For "White" mode: the lamp will be in Lighting working mode

The white LED can be used to bring light to any garden parties or pathways

## 3. BATTERY REPLACEMENT

Should the light source start to dull or stay on for shorter amounts of periods, we recommend that the rechargeable battery should be replaced in the following way.

- 1) Open the back cover
- 2) Replace the used battery with a new one making sure that the polarity (+/-) is followed as this could cause serious damage to the unit.

**NOTE: This product should only be replaced with a rechargeable AA Ni-MH battery.**
